At the same time and location Incanto Mosaic will set up an exhibition of its mosaic open to public.

Incanto Mosaic would like to thank Accademia delle Arti e del Muro Dipinto, in the person of Maurizio Morea, for the kind availability to accept an welcome "Elsa", the first piece of art in the village not painted.

Incanto Mosaic

Incanto mosaic is an Italian design company born to reinterpret the ancient art of mosaic in a contemporary way.

Inspiration, creativity, passion and technology are the ingredients that drive the vision of Incanto Mosaic.

Thanks to the **exclusive technique** developed, to materials and production entirely **made in Italy**, Incanto Mosaic creates unique and precious pieces of art: starting from an image, thousands of small and fine glass tiles are carefully positioned by hand one next to the other until they harmonically fuse together; this gives rise to an artwork absolutely unique in its kind, where the result is more than the sum of its part.

Incanto Mosaic offers a catalogue of artworks spanning from classical to design subjects; moreover, it gives you the opportunity of creating personalized artworks where subject, dimensions, and colors can be personally defined.

"Life is a mosaic: each of us is an original set of elements, embellished with love and experience"
(Simone Ferrero, co-creator of Incanto Mosaic).
